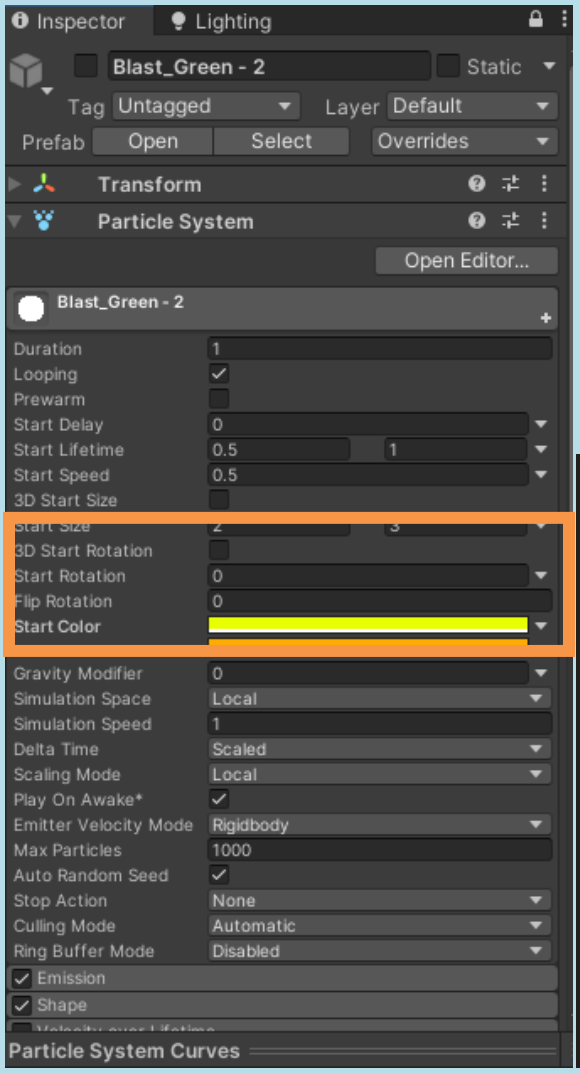
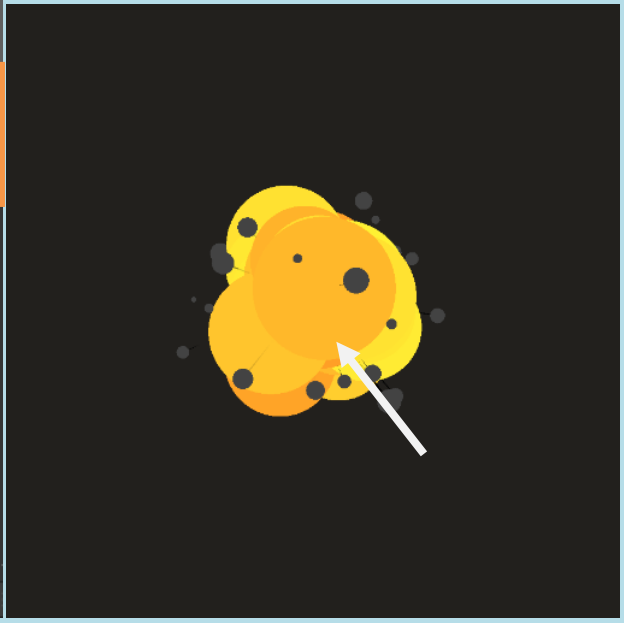
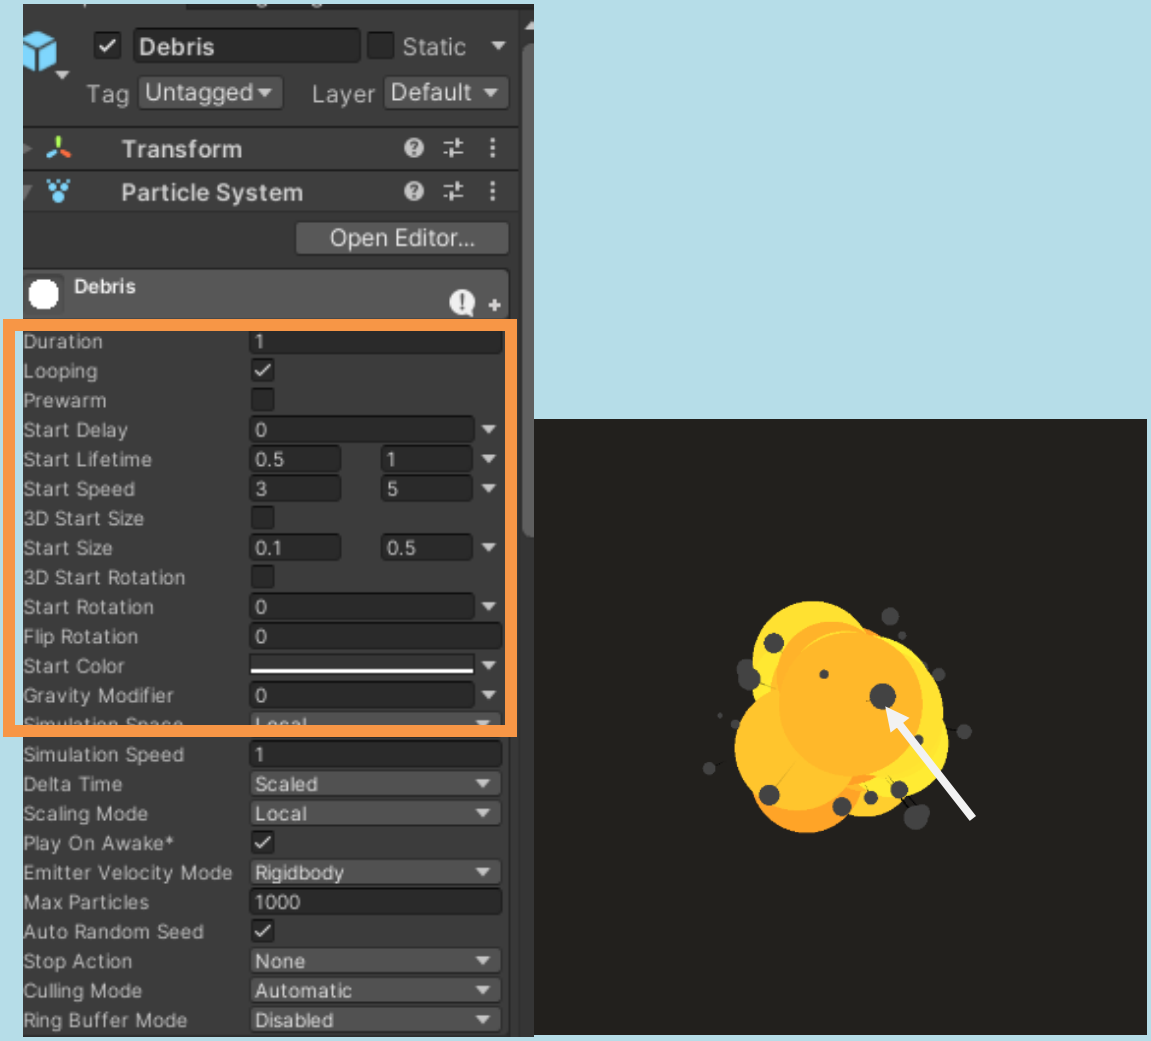
How to Edit Colors:-





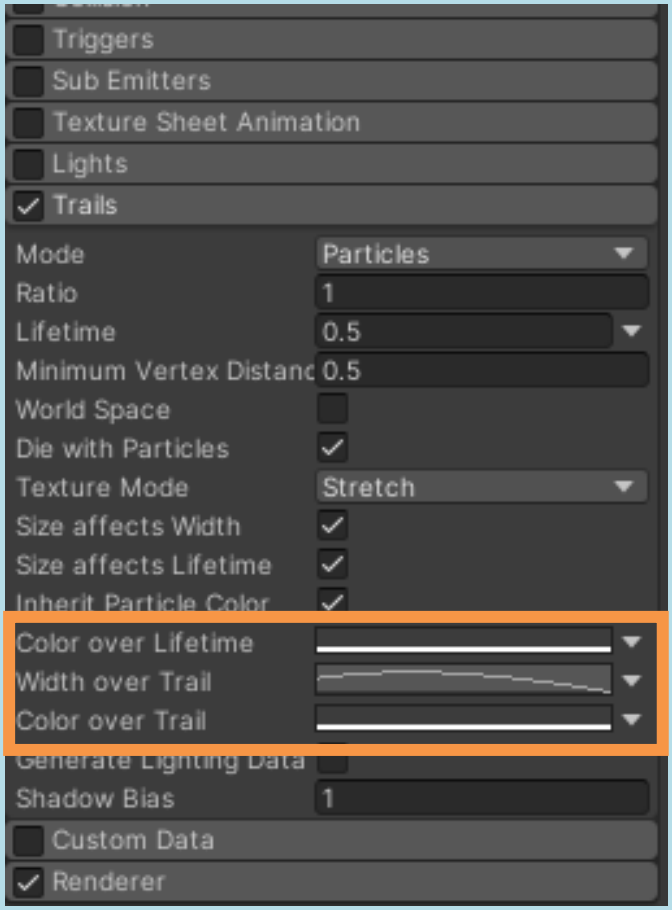
To Change these colors :-

1. **Go to your prefab inspector**
2. **Go to Start Color at the Particle system**
3. **Change two colors as you Want and It will work Fine**



To Change This :-

1. **Then go to Debris Particle Child of Main Particle system**
2. **Go to start color and choose which you want**



To Change Trails :-

- Go to trails under the Debris particles
- Go to life time Color and Change what you want
- You can also change the width over trails to get amazing results

I really encourage you all to play with settings to get More Of It.....

-------Thanks for the Purchase------
